

Our Mission

Hawthorne Foundation Development Corporation has been formed solely for the charitable purposes of increasing public awareness and to raise financial support for Hawthorne Foundation. The generation of income and support will provide supplementation of income to the agency that is not available through Government supported operating funds. Hawthorne Foundation is a Not-for-Profit organization formed in 1984 to provide services to individuals with autism and other disabilities. Our organization has grown to serve more than 350 individuals each year including students from 45 school districts throughout Hudson Valley and New York City. Children and adults who receive our services benefit from a high-quality education program grounded in the science of Applied Behavior Analysis.

Make It Yours

Where do you want to live?

Who do you want to live with?

What type of home do you want to live in?

Do you need help throughout your home?

Do you need medical assistance?

We are listening and we can help you figure it out, it's what we live for!

What Would You Like, How Can We Support you?

Hawthorne Foundation Development Corporation was founded to support Hawthorne Foundation Incorporated. Hawthorne Foundation Inc. has been supporting people who have developmental and intellectual disabilities since the early 1980's. We are the first certified school in the State of New York who has mastered Applied Behavior Analysis. Through the support of HFDC, HFI helps people learn and develop the skills they need to live meaningful, purposeful and happy lives.

Throughout the years, we have learned that individualization and intimate settings provides the learner a better opportunity to succeed. We hope to provide the same perspective when it comes to the homes of our former students and members of our communities. With our staff of State Certified Housing Navigators, Hawthorne Foundation Development Corporation will work with and for you to find the home of YOUR dreams, and the support to make living alone, or not, possible.
